## **Defining the Details**

Antique Copper (AC)		Durability	
	<ul> <li>A great heritage look</li> <li>Each product in this finish is hand aged, meaning each product has its own distinct variation and depth of colour.</li> <li>Designed to age, this finish will continue to wear and form distinct characteristics that look beautiful at every stage of its life.</li> </ul>	1	10
Matt Black (MB)		Durability	
	<ul> <li>Timeless all rounder</li> <li>This highly-durable finish is achieved through powder-coating or an ageing process depending on the product.</li> </ul>	1	10
Chrome Plate (CP)		Durability	
	Sleek and adaptable		
	<ul> <li>Chrome plating not only looks stunning but is incredibly durable.</li> <li>This finish will remain at its best for years to come with occasional cleaning to maintain its lustre and brightness.</li> </ul>	1	10
Satin Chrome (SC)		Durability	
	<ul> <li>We achieve this finish by carefully brushing Chrome Plate to remove shine and develop a sleek satin finish.</li> <li>Occasional cleaning will keep this highly-durable finish looking its best for years to come.</li> </ul>	1	10
Rumbled Nickel (RN)		Durability	
	<ul> <li>Character filled</li> <li>This unique finish is achieved through traditional methods to create something truly special.</li> <li>Nickel-plating is aged before each product is 'rumbled' with small stones to reveal glimpses of the nickel through the antique finish.</li> </ul>	1	10

### **Defining the Details**

Polished Nickel (PN) Durability

### **Elegant neutral**

- A highly durable finish that is warmer than chrome.
- Highly polished nickel-plate gives this finish its beautiful depth of colour.
- Regular cleaning will maintain the lustre of this finish.

1

Satin Nickel (SN) Durability

### Understated and chic

- Soft to the touch and exhibiting warm hues.
- To achieve this finish, nickel-plated brass is very lightly linished, before being plated with satin nickel.
